FOREIGN INTELLIGENCE

L O N D O N, February 1.

Extract of a letter from Shrewsbury, January 28.

"ON Saturday a Clergyman belonging to the Rev. Dr. Wesley's church, was stopped near Bedford, by a highwayman, and robbed of his money, to the amount of 52s. the robber likewise insisted he should exchange coats, which request he complied with, in some chagrin, it being a new one. After he had rode on about ten minutes, he perceived the depredator again returning—being fearful of more dangerous consequences, he hastened his speed, happily escaped the pursuit, and got to a friend's house; where he instantly discovered the cause of the highwayman's return; for on searching the pockets, he found, tied in a silk handkerchief, as many guineas as he had lost shillings, which very well compensated for the loss of his coat, and bereaved the plunderer of his ill gotten treasure."

February 17.

M. Broillet, a member of the National Assembly of France, has proposed a scheme for the abolition of the barbarous custom of duelling—He proposes that the Assembly should issue a solemn declaration: 1. That honour, as well as virtue, being personal, no citizen can be deprived of it but by his own act, and that it can in no case depend on the caprice of another.—2. That every citizen, convicted of having given an affront to another, by words gestures, or threats, will be prosecuted and punished as a disturber of the public peace.—3. That every person who shall strike another shall be declared infamous.—4. That the laws against duelling shall continue in force, and be executed with the utmost rigour.—5. That those are to be considered as disgraced, who, in contempt of the law, dare to give a challenge.—And, 6. That it cannot be dishonourable to give a challenge, as true honour is a debt due to the laws.

An ingenious gentleman who owed a friend some money, invited him to dine with him, and plied him so briskly with good wine, that the creditor generously forgave the debt. The other calls this a new method of LIQUID ating a debt!

In consequence of the premiums offered by the Hon. Board of Trustees, at Edinburg, two pieces of cotton were completely bleached in five hours; one piece of linen in forty hours and a half, and another in forty-eight hours and a half, all completely whitened, without exposure to the sun and air. The judges have declared the colour to be as perfect as can be given to goods of the same quality, and that the strength and texture were not at all injured or weakened. Several other experiments are making, both in Ireland and Scotland, with respect to this important discovery.

AMERICAN OCCURRENCES

B A L T I M O R E, April 15.

The PRESIDENT of the United States hath been pleased to appoint Colonel Moses Rawlings, (a gentleman of distinguished merit as a Soldier and Citizen) to command the Battalion of Levies to be raised in this State.

From a London Paper of January last.
VOYAGE of DISCOVERY.

The Discovery, Capt. VANCOUVER, who sailed with Capt. COOK, and particularly distinguished himself as an Astronomer, has fallen down the river to take in her guns. She is destined to make a survey of the North west Coast of America; for which purpose, Capt Vancouver (who has chosen his own officers) has Mr Whidbey for his Master, who is esteemed one of the most able Marine Surveyors in the Navy.

A L E X A N D R I A, April 21.

On Friday, the 15th inst. the Hon. DANIEL CARROLL, and Dr. DAVID STEWART, arrived in this town, to superintend the fixing of the first CORNER STONE of the Federal District. By neglect, or accident, the inhabitants were not apprized of their coming, and therefore had not the opportunity

of executing fully, that plan of operation which their interest in the business, and their respect for the Commissioners, had previously suggested.

The Mayor and Commonalty, together with Members of the different Lodges of the Town, at 3 o'clock, waited on the Commissioners at Mr. Wise's, where they had dined, and after drinking a Glass of Wine to the following Sentiment, viz. "May the Stone which we are about to place in the ground, remain an immovable monument of the wisdom and unanimity of North-America," the company proceeded to Jones's Point in the following order:

1st. The Town Sergeant—2d. the Hon. Daniel Carroll and the Mayor—3d. Mr. Ellicott and the Recorder—4th. Such of the Aldermen and Common Council as were not Free-Masons—5th. The Strangers—6th. The Master of Lodge No. 22, with Dr. David Stewart at his right, and the Rev. James Muir at his left, followed by the rest of the fraternity, in their usual form of procession—And lastly, The Citizens, two by two—When Mr. Ellicott had ascertained the precise point, from which the first line of the district was to proceed, the Master of the Lodge, and Dr. Stewart, assisted by others of their brethren, placed the Stone; after which a deposit of corn, wine and oil, was made upon it, and the following observations were delivered by the Rev. Mr. Muir:

"Of America it may be said, as it was of Judea of old, that it is a good land, and large; a land of brooks of waters, of fountains, and depths that spring out of the valleys and hills—A land of wheat and barley, and vines, and fig-trees, and pomegranates; a land of oil olive and honey; a land wherein we eat bread without scarceness, and have lack of nothing; a land whose stones are iron, and out of whose hills thou mayest dig brass—A land which the Lord thy God careth for; the eyes of the Lord thy God are always upon it, from the beginning of the year even unto the end of the year!—May Americans be grateful and virtuous, and they shall secure the indulgence of Providence! May they be unanimous and just, and they shall rise to greatness! May true patriotism animate every heart—May it be the devout and universal wish, "Peace be within thy walls, O America!—and prosperity within thy palaces!" Antiable it is for brethren to dwell in unity. It is more fragrant than the perfumes on Aaron's garment! It is more refreshing than the dews on Hermon's Hill!

"May this Stone long commemorate the goodness of God in those uncommon events which have given America a name among the Nations—Under this Stone, may Jealousy and Selfishness be forever buried! From this Stone may a superstructure arise, whose glory, whose magnificence, stability, unequal-

ed hitherto, shall astonish the World, and invite even the Savage of Wilderness to take shelter under its roof!"

The company partook of some liquid refreshment, and returned to the place from whence they came, where a number of toasts were drank, and the following, which was delivered by the Master of the Lodge, was received with every token of approbation:

"Brethren and Gentlemen,

"May 'JEALOUSY, that green-eyed Monster,' be buried deep under the work which we have this day compleated, never to rise again within the Federal District!"

It may be safely pronounced that this or a similar sentiment, pervaded the breast of every individual present on the occasion.

LEXINGTON, June 18.

The Expedition under command of Brig. Gen. Scott, have returned crowned with success. We are informed by a number of the men who were out, that they entirely destroyed three towns, killed upwards of thirty warriors, and took fifty-eight prisoners, without the loss of a single man, and only five wounded, none of which are dangerous. They got to the towns undiscovered, on Wednesday, the first inst. about 2 o'clock in the evening. Three of our men were drowned in white river on their return. If any interesting particulars respecting this expedition, should come to hand, they will appear in our next.
